Alien Agenda: Human Meat Processing Behind All Cults?

By Ann Diener (<http://www.veteranstoday.com/author/anndiener/>) on June 22, 2017 • • •

It has been a long war against the Aliens. This story below comes from my own information.

A long time ago, the white aliens came to the planet when the Anunnaki walked the planet. The white aliens flooded the planet with what I call Corporate energy. It is artificial and unnatural.

Some people became addicted to the corporate energy, while others hid out in caves. I had a flashback to that past life to address the question, "Is Baal coming back?" (<http://www.veteranstoday.com/2017/06/13/private-sex-between-men-public-straightness-the-entry-point-for-the-alien-agenda/>) that I wrote about in one of my previous articles. Baal was not the king, we were hiding in cave, and he was my brother at that time, I suspect from my past life work that I have been doing.

The white alien came to the cave where our family was hiding, and my brother met with the alien who made him an "offer he could not refuse." I suspect they stole my brother and I may have made a deal with them trying to get my brother back. That was the start of the cults on the planet including Goddess worship and Luciferianism. He was Baal. All kinds of myth and legend came after that. My goal is for everything to be normal and natural here on the planet again.

The Alien Agenda has been a playing a long game to ultimately remove the people from the planet and potentially send us to a meat processing ships in space, from what I saw in one of my visuals yesterday. The aliens always try to make us feel like this is not our home. Our planet is our home. "This is not a test."

That is why Corporate has created all of this with the wars, the sexual stuff – forced sex with children with the aliens- to insure our compliance-scary, creepy stuff that may be connected with sex-blackmail (<http://www.veteranstoday.com/2017/03/19/exclusive-investigation-trump-acosta-epstein-pedophile-plea-deal/>), environmental destruction (<http://www.veteranstoday.com/2017/04/20/epa-sanity-may-damage-childrens-brains-kill-wildlife/>) despite us having everything available to create sustainability.

I got involved with a Quest a long time ago. I suspect it was a Secret Society quest that was designed to really hurt me, it was a "Quest to Change the Federal Government". The guy who gave me the key denied my quest. The Government and certain individuals wondered what the Quest was about, so they interrogated me in my house and asked me, "What does a quest mean to you?" I said to "have a dragon as a pet" because in reality I didn't know what the Quest was as I was told to forget about it and call the gatekeeper when it was over. The government brought in the energy of a dragon, because of my stupid response to them because I did not know what the Quest was about.

The dragon asked for a challenge. The Draconian war began, and I connected beings to God, using my psychic abilities – it looks like a film strip watching faces go by. I saw a lot of brown haired people rolling by on my minds eye. At the end I had a crescent shaped pustule appear on one of my fingers. At that point I felt like I had had done a bad thing. I was told to keep this a secret, no one had any right to hurt me this way, I was an American citizen. I wanted to make amends with who ever was involved in the war because it was an illegal war. I have fought hard to make amends and change the Federal government in a positive way with everything I have written about foreign policy wise. With so much publicly available information, it just seems stupid to write about the wars and terrorism any more. We have proven it is organized crime and technocracy over and over again. It was a pre-planned agenda. That is what Corporate is.

I have been illegally targeted and illegally implanted for many years. When I nearly lost my life recently, I wanted to get to the bottom of everything, so I started revoking agreements. I did get to the bottom of everything. The key is to stop believing in cults, all of them. They were manufactured to fool us all.

There are so many myths and legends – black widow stories, stories of "evil women," and so many that one cannot write them all out. They are all false and were all started with that one alien who came to us in a cave and then my brother at the time joined "Corporate" and the Alien Agenda began. Some people even have used black spells and magic against me.

We need to take our power back on the planet and be brothers and sisters again. The Anunnaki are already here, we are just blocking our gold from shining. The white alien needs to be aware that his agreement has been revoked. There will be no human meat processing facilities, space travel is up to us later, and we will revitalize our planet completely.

I have some of the technology and chemistry available, and there are lots of inventions being covered up we only need resources to accomplish the projects. You may contact Raven Knight (<http://www.ravenknight.com/index.php>) for more information.

This has been an ongoing investigation into what has been stopping us from "saving ourselves first."

We have to be more spiritual and get back to real work of doing things like building great sustainable projects including water energy independent homes for everyone, something I have been working on designing for many years.

I want my "idea head" back. I was too badly implanted back then to remember what happened to me starting on July 4th or 5th, 2001. A lot had been going on before then that was also very bad. It was all very very painful. The government has no right to take my life away. What ever the story is, I hope the beautiful future.

One interesting thing I found out from my relationship with the Anunnaki is that smoking tobacco, helps Anunnaki stay closer to the earth, and it must be pure tobacco though as the alien agenda tries to poison us.

Every day we have more and more negative stuff going on with the government, and now they are cutting Medicaid. It is so sad to watch us be fooled.

My goal is for all our children to grow up better.
